1. Examiner vacates final rejection of Examiner's Lien due to applicant's arguments filed on 06/24/2005. This case is re-open for prosecution. An Office Action will follow after applicant replies to restriction described below:

2. Restriction to one of the following inventions is required under 35 U.S.C. 121:

I. Claims 1-40 and 55-73, drawn to setting up a telephony session using VoiceXML application, classified in class 709, subclass 204.

II. Claims 41-54, drawn to performing policy checks before allowing an intermediate party to facilitate an interactive telephony session, classified in class 709, subclass 225.

3. The inventions are distinct, each from the other because of the following reasons:

Inventions Group I and Group II are related as subcombinations disclosed as usable together in a single combination. The subcombinations are distinct from each other if they are shown to be separately usable. In the instant case, invention Group I has separate utility such as setting up a telephony session using VoiceXML application, and Group II has separate utility such as performing policy checks before allowing an intermediate party to facilitate an interactive telephony session. See MPEP § 806.05(d).

4. The inventions are distinct, each from the other because of the following reasons:
 - a. These inventions have acquired a separate status in the art as shown by their different classification.
 - b. The search required for one Group is not required for the other Groups

For the reasons above restriction for examination purposes as indicated is proper.

2. Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

3. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a diligently-filed petition under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(h).

5. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Le H. Luu whose telephone number is 571-272-3884. The examiner can normally be reached on 7:00am - 4:30pm.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Rupal Dharia can be reached on 571-272-3880. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
